

## The Institute of Quarrying Australia 50th National Conference

### QUARRYING 2007 – ABSTRACT GREG GOODSIR

#### Our Quarrying Heritage

Being the 50<sup>th</sup> Annual Conference of The Institute of Quarrying in Australia, it is an excellent opportunity to look at where we have come from – our heritage.

A series of recently “rescued” photos will be used to demonstrate our history and particularly show how difficult and dangerous our industry has been.

The paper also looks at the major changes to “The Institute” in Australia, how it has supported the growth of the quarrying industry and more importantly the people who made it happen.

The Institute is dedicated to preserving the heritage of the industry and is now working hard to ensure we provide the mechanisms to collect, save and make available many valuable historic documents.
