"The only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle. As with all matters of the heart, you'll know when you find it. And, like any great relationship, it just gets better and better as the years roll on. So keep looking until you find it. Don't settle. [...] Stay hungry. Stay foolish"
(S. Jobs, an American computer entrepreneur and innovator)

"Genius is one percent inspiration, ninety-nine percent perspiration"
(T. Edison, an American inventor and entrepreneur)

"Poor is the pupil who does not surpass his master"
(L. da Vinci, an Italian Renaissance polymath)

"I seek not the answer but to understand the question"
(H. Kroto, a British Nobel Prize Winner)
