Contents

Preface —— XI

Acknowledgements —— XIII

1 Introduction —— 1
1.1 Overview —— **1**
1.2 Vibrant Matter in Practice —— **8**
1.3 Dynamic Droplets —— **9**
1.4 Hylozoic Ground —— **10**
1.5 Vibrant Venice —— **11**
1.6 Vibrant Cities —— **12**
1.7 Manifesto for Vibrant Architecture —— **13**
1.8 Speculative Narratives —— **14**
1.9 Summary —— **14**

2 Definitions —— 15
2.1 Overview —— **15**
2.2 Aim of Research —— **15**
2.3 Process Philosophy —— **16**
2.4 Complexity —— **16**
2.5 Actant —— **19**
2.6 Assemblage —— **21**
2.7 Nature —— **22**
2.8 Millennial Nature —— **23**
2.9 Post-natural —— **24**
2.10 Ecology —— **26**
2.11 Technology —— **29**
2.12 Machines —— **29**
2.13 Ecological Living Technology —— **31**
2.13.1 Living Technology —— **31**
2.13.2 Ecological Technology —— **33**
2.14 Synthetic Biology —— **34**
2.15 Synthetic Ecology —— **34**
2.16 Protocell —— **35**
2.17 Natural Computing —— **35**
2.17.1 Unconventional Computing —— **37**
2.17.2 Morphological Computing —— **38**
2.18 Vibrant Matter —— **39**
2.18.1 Slowness —— **40**

2.18.2 Porosity —— **41**
2.18.3 Inorganic Sympathy —— **41**
2.19 Vibrant Architecture —— **41**
2.20 Summary —— **41**

3 Literature Survey —— 43
3.1 Overview —— **43**
3.2 Information Sources —— **44**
3.3 Critical Context —— **45**
3.3.1 Overview —— **45**
3.3.2 Organicism —— **45**
3.3.3 Bio Design —— **53**
3.3.4 Vibrant Matter —— **57**
3.3.5 Morphological Computing —— **59**
3.4 Summary —— **60**

4 Method —— 61
4.1 Overview —— **61**
4.2 Multidisciplinary Approach —— **61**
4.3 Action Research —— **63**
4.4 Speculative Practice —— **65**
4.5 Morphological Computing —— **66**
4.6 Summary —— **70**

5 Vibrant Matter in Practice —— 71
5.1 Overview —— **71**
5.2 The Dynamic Nature of Matter —— **71**
5.3 Summary —— **79**

6 Dynamic Droplets —— 81
6.1 Overview —— **81**
6.2 Identifying a Suitable Model System for Vibrant Matter —— **81**
6.3 Dynamic Droplets as Vibrant Matter —— **82**
6.4 Characterizing the Bütschli Dynamic Droplet System —— **83**
6.4.1 Bütschli System Preparation —— **83**
6.4.2 Bütschli System General Observations —— **84**
6.4.3 Stages of Bütschli Droplet Development —— **87**
6.4.3.1 Birth: Field of Fire and Ice —— **88**
6.4.3.2 Birth: Shells —— **89**
6.4.3.3 Life: Organizing Droplets —— **91**
6.4.3.3.1 Primary Morphologies —— **92**
6.4.3.3.1.1 Droplet —— **92**

6.4.3.3.1.2 Droplet with Osmotic Product —— **93**
6.4.3.3.1.3 Droplet with Extended Osmotic Product —— **93**
6.4.3.3.1.4 Microtubes —— **94**
6.4.3.3.1.5 Compound Structures —— **96**
6.4.3.3.2 Primary Behaviours —— **96**
6.4.3.3.2.1 Interfacing —— **96**
6.4.3.3.2.2 Mirroring —— **98**
6.4.3.3.2.3 Satellites —— **98**
6.4.3.3.2.4 Chains —— **99**
6.4.3.3.2.5 Populations —— **99**
6.4.3.4 Death: Quiescence —— **103**
6.5 Exploring the Technological Potential of Bütschli Droplets —— **103**
6.5.1 Manipulating the Bütschli System Using Morphological Computing Techniques —— **104**
6.5.1.1 Changing Internal Conditions —— **104**
6.5.1.2 Changing External Conditions —— **107**
6.5.1.2.1 Acetone —— **107**
6.5.1.2.2 Ethanol —— **108**
6.5.1.2.3 Butan-1-ol —— **109**
6.5.1.2.4 2-propanol —— **111**
6.5.1.2.5 1-octanol —— **111**
6.6 Unexpected Insights Into the Nature of Vibrant Matter —— **112**
6.6.1 Locomotion —— **112**
6.6.2 Self-replication —— **112**
6.7 Summary of Findings Related to the Technological Potential of the Bütschli System —— **113**
6.8 Bütschli Droplets as a Potential Drawing Technology —— **114**
6.9 Ontological and Epistemological Issues Raised by Bütschli Droplets —— **118**
6.10 Observations Made with Respect to the Ontology and Epistemological Issues of Bütschli Droplets —— **124**
6.11 Summary —— **125**

7 ‘A Short Story of a Short Life’ —— 127
7.1 Overview —— **127**
7.2 A Short Story of a Short Life —— **127**

8 ‘Hylozoic Ground’ —— 133
8.1 Overview —— **133**
8.2 An Exploration of Vibrant Matter in an Architectural Design Context —— **133**
8.3 Hylozoic Ground at the Canadian Pavilion, Venice —— **135**

8.4 Hylozoic Ground Dynamic Chemistries —— **137**
8.4.1 Incubator Flasks: Modified Bütschli System —— **138**
8.4.2 'Carbon Eater' Flasks with Carbon-fixing Oil Droplets or 'Protopearls' —— **146**
8.4.3 Liesegang Ring Plates: Vertical Diffusion–Precipitation Fields —— **150**
8.4.4 Hygroscopic Islands —— **154**
8.5 Modifications of the Hylozoic Ground Chemistries —— **156**
8.5.1 Hygroscopic Preparation —— **156**
8.5.2 BIO·FICTION Installation —— **161**
8.6 Design Principles —— **164**
8.7 The importance of Infrastructure —— **167**
8.8 Infrastructure Experiments —— **175**
8.8.1 Liesegang Scaffolding Preparation —— **176**
8.8.2 Traube Scaffolding Preparation —— **176**
8.8.3 Scaffold Experiment Observations —— **181**
8.9 Hylozoic Ground and the Architectural Transferability of ELT-informed Design Principles —— **182**
8.10 Ontological and Epistemological Questions Raised by the Hylozoic Ground Chemistries —— **184**
8.11 Summary —— **186**

9 'Biolime: Mock Rock' —— 189
9.1 Overview —— **189**
9.2 Biolime: Mock Rock —— **189**

10 Vibrant Venice: Designing with Vibrant Matter —— 194
10.1 Overview —— **194**
10.2 Future-proofing Architecture —— **194**
10.3 Venice as a Case Study for Urban-Scale Design with Vibrant Matter —— **197**
10.4 ELT as a Next Generation Technology in Venice's Survival Portfolio —— **204**
10.5 Chemically Programming the Fabric of Venice —— **208**
10.6 Experiments on Programmable Droplets —— **212**
10.6.1 Droplet Design —— **213**
10.6.1.1 Barium Protopearls —— **214**
10.6.1.2 Calcium Protopearls —— **215**
10.6.2 Protopearl Interactions with Other Materials —— **216**
10.6.2.1 Brick —— **217**
10.6.2.2 Wood —— **218**
10.6.2.3 Concrete —— **218**
10.6.2.4 Steel —— **219**

10.6.3 Observations —— **219**
10.7 Further Development of Dynamic Droplets —— **222**
10.8 ELT and Environmental Responsiveness —— **225**
10.9 Photographic Survey of the Biological 'Stones' of Venice —— **226**
10.10 Vibrant Venice: Weaving a Post-natural Fabric —— **227**
10.11 Ethics, Control and Grey Goo —— **232**
10.12 Summary —— **234**

11 'Post-natural Venice' —— 238
11.1 Overview —— **238**
11.2 Post-natural Venice —— **238**

12 Vibrant Cities —— 247
12.1 Overview —— **247**
12.2 Soils as ELT —— **248**
12.3 Architecture As a Site for Ecological Revival —— **250**
12.4 Soils as Architectural Infrastructure and Technology —— **253**
12.5 Summary —— **257**

13 'Japan: 2060' —— 260
13.1 Overview —— **260**
13.2 Japan: 2060 —— **260**

14 Manifesto For Vibrant Architecture —— 264
14.1 Overview —— **264**
14.2 Manifesto for Vibrant Architecture —— **265**

15 'The Greatest Alluvian Poet That Ever Lived' —— 267
15.1 Overview —— **267**
15.2 The Greatest Alluvian Poet That Ever Lived —— **267**

16 Conclusion —— 280
16.1 Overview —— **280**
16.2 The Agency of Matter —— **280**
16.3 A Recipe for Vibrant Architecture: An Experimental Approach —— **287**
16.4 Embodying Complexity —— **289**
16.5 Site-specific Exploration of an Emerging Technological Platform —— **292**
16.6 Scaling ELT to Urban Dimensions —— **292**
16.7 Speculative Narratives as a Means of Exploring Innovation Space —— **293**
16.8 Manifesto for Vibrant Architecture —— **295**
16.9 Designing with Vibrant Matter —— **295**

16.9.1 Design with Probability —— **296**
16.9.2 Process As Material —— **297**
16.9.3 Design Characteristics of Lifelike Systems —— **302**
16.10 Vibrant Matter as Technology —— **302**
16.11 Procurement and Infrastructure —— **314**
16.12 Challenges —— **315**
16.13 What Next? —— **319**
16.13.1 Theory —— **320**
16.13.2 Experiment —— **321**
16.13.3 Practice —— **322**
16.4 From Here to There: Towards a Practice of Vibrant Architecture —— **325**
