# Wind Powering America Webinar Series

The Wind Powering America webinar series provides expert information on today's key wind energy topics.

- Webinars are presented on the third Wednesday of every month.
- Recordings and text versions of past webinars are posted on the Wind Powering America website.
- Registration is free on the Wind Powering America website.
- Past topics include:
  - *Myths and Benefits of Wind Energy*
  - *Offshore Wind Development and Industry Update*
  - *Cost of Wind Energy, Project Financing, and Funding.*
