Tsutomu Suzuki, and Akira Kato

The authors wish to apologize for an error (page 67, Fig. 7) caused by inadvertent mis-revision. The authors would like to correct the doses of “Morphine”, which were written in the middle panel of Fig. 7, from 0.5, 1, 1.5, and 3 mg/kg to **1.25, 2.5, 5, and 7.5** mg/kg, respectively. The effective dose range of morphine written in the text (page 69, line 2) is correct.
