

## DAVID GEORGE MEDWAY (1939-2013)

The recent passing of David George Medway of New Plymouth brings to a close one of the more specialist careers of amateur ornithology in New Zealand. Professionally David was a Solicitor and completed his Law Degree at Victoria, Wellington, while working at the Supreme Court. After 6 years he moved back to New Plymouth and joined a legal firm where he remained until he retired.

While still a college student he was active in the Taranaki Alpine Club and spent a lot of time on Mt Egmont and the surrounding area. In addition to climbing he had a keen interest in botany as well as birds. At that time he was also keen on caving and belonged to a local club; through this he developed a keen interest in Paleornithology.

David's interest in bird study had begun while he was still a schoolboy (he joined the Society in 1955 while still at school) when he began banding silvereyes. He made contact with the Society at that time to be able to correspond with others who were also banding them.

David was a committed Society leader, both regionally and nationally. He was the Society's Regional Representative in Taranaki for 2 extended periods: 1965-1973 and 1981-2000. He was the Convenor of the Society's Rare Birds Committee from 1999-2004. During this period he was instrumental in coordinating the updating of outstanding records which had been allowed to stagnate and ensuring that submissions were responded to in a timely fashion.

David served on the Council from 1998-2007 serving as the President from 2000-2006. During his time as president the Society developed its first strategic plan and began implementing more forward looking ideas for furthering the Society.

As a Solicitor he also applied his legal skills to the benefit of the Society by leading the total revision of the Society's Constitution. This was a major undertaking that required much skilful negotiation over an extended period, eventually leading to its adoption without dissent in 2004.

In 2012 the Society awarded David a Robert Falla Memorial Award in recognition of his extended service to the Society and Ornithology.

His real passion however was unravelling and interpreting the Ornithology of the voyages of James Cook. As a result over his career David

produced an outstanding research and publication record of those times when the discovery of New Zealand birds was in its infancy. Not content with obtaining data from journals and museums David travelled widely to support his research, with trips to Europe, French Polynesia, Hawaii and Australia. As a result of his meticulous research into that ornithological history he achieved the distinction of being elected as a fellow of the Linnean Society of London in November 1978. This is an honour that is very rarely granted to amateur ornithologists.

David was not solely committed to birds but was engaged in current conservation challenges of the day, both nationally and locally. He served on the National Parks & Reserves Authority from 1968-1981 and the Fauna Protection Advisory Council and he maintained a role as the Honorary Consultant in Historical Ornithology to the Alexander Turnbull Library. He was also an Executive Board Member and Councillor of the Royal Forest & Bird Society, as well as the President of the Taranaki branch of Forest & Bird.

David also made a significant contribution to his local community with long standing commitments to the Taranaki Museum where he served as President for some time in the 1980s. As his home backed onto Pukekura Park and he was constantly wandering the grounds checking birds and the plants, he eventually became involved with the Friends of Pukekura Park. His contributions there included a role as newsletter editor and contributions to improve understanding of the history of the park. He eventually became the President in 2009.

In whatever he was engaged David brought a meticulous attention to detail. Whether it was reviewing branch meeting minutes, a paper for publication, or identifying specimens, David was always meticulous in his consideration of the facts of the matter at hand.

David's publication record speaks for itself. Over his career he published 3 books as sole author, 178 journal articles, mostly in *Notornis* but also in Australian journals, and an additional 33 short notes. He contributed to 7 book chapters and wrote several additional published reports on the natural history of Taranaki.

### List of publications by David Medway in *Notornis* and *Southern Bird*

- Medway, D.G. 2011. The broad-billed prion (*Pachyptila vittata*) nesting colonies recorded during Cook's visit to Dusky Sound in 1773. *Notornis* 58: 165-168.
- Medway, D.G. 2010. A review of the origin, European discovery, and first descriptions of the red shining-parrot (*Prosopaea t. tabuensis*) on 'Eua, Kingdom of Tonga. *Notornis* 57: 128-134.
- Medway, D.G. 2010. The Tongatapu rail *Gallirallus hypoleucus* (Finsch & Hartlaub, 1867): an extinct species resurrected? *Notornis* 57: 199-203.
- Medway, D.G. 2009. Survival of breeding seabirds into the historic period on Huahine, Society Islands. *Notornis* 56: 54-56.
- Medway, D.G. 2009. Why did bellbirds (*Anthornis m. melanura*) return to New Plymouth, and why have they gone again? *Notornis* 56: 34-39.
- Medway, D.G. 2008. The first record of the South Island fernbird (*Bowdleria p. punctata*). *Notornis* 55: 109-110.
- Medway, D.G. 2007. The correct type locality of the shore plover *Thinornis novaeseelandiae* (Gmelin, 1789). *Notornis* 54: 115-116.
- Medway, D.G. 2007. The correct type locality of the shore plover *Thinornis novaeseelandiae* (Gmelin, 1789). *Notornis* 54: 115-116.
- Medway, D.G. 2007. A possible live South Island snipe (*Coenocorypha iredalei*) at Dusky Sound in 1773. *Notornis* 54: 237-238.
- Medway, D.G. 2005. Feeding association of tui (*Prosthemadera n. novaeseelandiae*) with North Island kaka (*Nestor meridionalis septentrionalis*). *Notornis* 52: 111-112.
- Medway, D. 2004. Annual report by the president on behalf of the council for 2003-2004. *Southern Bird* 18 (June): 3-4.
- Medway, D.G. 2004. The extant type specimens of birds from New Zealand and the Society Islands collected on Cook's second voyage and described by Anders Sparrman in Museum Carlsonianum (1786-1789). *Notornis* 51: 131-135.
- Medway, D.G. 2004. The land bird fauna of Stephens Island, New Zealand in the early 1890s, and the cause of its demise. *Notornis* 51: 201-211.
- Medway, D.G. 2004. The land bird fauna of Stephens Island, New Zealand, 1915-1933. *Notornis* 51: 229-230.
- Medway, D. 2004. Meritorious service award. *Southern Bird* 19(Sep): 10.
- Medway, D.G. 2004. The place of collection of the original specimens of *Pealeornis maoriana* Mathews, 1932. *Notornis* 51: 59-59.
- Medway, D. 2004. Rare birds committee - 6 monthly report. *Southern Bird* 18(Jun): 12.
- Medway, D.G. 2004. Taxonomic status of the Stephens Island piopio (*Turnagra capensis*). *Notornis* 51: 231-232.
- Medway, D.G. 2004. The type localities of Cook's petrel (*Pterodroma cookii*), reef heron (*Egretta sacra sacra*) and wandering tattler (*Tringa incana*). *Notornis* 51: 155-158.
- Medway, D. 2003. Annual report by the president. *Southern Bird* 14(Jun): 3-4.
- Medway, D. 2003. Meritorious service awards. *Southern Bird* 15(Sep): 6.
- Medway, D. 2003. Rare birds committee - 6 monthly report. *Southern Bird* 14(Jun): 14-15.
- Medway, D. 2003. Rare birds committee - 6 monthly report. *Southern Bird* 16(Dec): 4-5.
- Medway, D.G. 2002. A critical review of the prions (genus *Pachyptila*) collected and observed on Cook's voyages. *Notornis* 49: 59-75.
- Medway, D. 2002. Egmont black petrels. *Southern Bird* 10(Jun): 9.
- Medway, D.G. 2002. An historic record of black petrels (*Procellaria parkinsoni*) nesting in south Westland. *Notornis* 49: 51-52.
- Medway, D.G. 2002. History and causes of the extirpation of the Providence petrel (*Pterodroma solandri*) on Norfolk Island. *Notornis* 49: 246-258.
- Medway, D. 2002. Memorandum of understanding. *Southern Bird* 12(Dec): 10.
- Medway, D. 2002. Meritorious service awards. *Southern Bird* 10(Jun): 4.
- Medway, D. 2002. New checklist committee. *Southern Bird* 9(Mar): 4.
- Medway, D. 2002. Rare birds committee - 6 monthly report. *Southern Bird* 10(Jun): 5-6.
- Medway, D. 2002. Rare birds committee - 6 monthly report. *Southern Bird* 12(Dec): 6-7.
- Medway, D. 2002. Rare or unusual bird reports in CSN. *Southern Bird* 10(Jun): 11.
- Medway, D. 2002. Restoring the dawn chorus. *Southern Bird* 9(Mar): 4.
- Medway, D. 2002. Robert Falla memorial award. *Southern Bird* 10(Jun): 2-3.
- Rowe, S.; Medway, D. 2002. Which New Zealand bird? A field guide to the birds of Korea. *Southern Bird*. 11(Sep): 11-12.
- Medway, D.G. 2002. Why were Providence petrels (*Pterodroma solandri*) nocturnal at Norfolk Island? *Notornis* 49: 268-270.
- Medway, D.G. 2001. Causes of the demise of a breeding population of titi on Mangaia, Cook Islands. *Notornis* 48: 137-144.
- Medway, D.; Wilson, K.-J. 2001. OSNZ now has a Scientific Committee. *Southern Bird* 7(Sep): 3.
- Medway, D. 2001. Rare birds committee - 6 monthly report. *Southern Bird* 6(Jun): 8-10.
- Medway, D. 2001. Rare birds committee - 6 monthly report. *Southern Bird* 8(Dec): 4-5.
- Medway, D.G. 2001. Rare birds committee - Report for 2000. *Notornis* 48: 61-62.
- Medway, D. 2001. Rare birds in CSN. *Southern Bird* 8(Dec): 12.
- Medway, D. 2001. Reportable rare birds. *Southern Bird* 7(Sep): 6.
- Medway, D. 2000. Consultancy work and information provision. *Southern Bird* 4(Dec): 7.
- Medway, D.G. 2000. Rare birds committee - Combined report for 1992-1999. *Notornis* 47: 64-70.
- Medway, D. 2000. The Rare Birds Committee: its functions and importance. *Notornis* 47: 174.
- Medway, D. 2000. Rare birds report. *Southern Bird* 2(Jun): 8.
- Medway, D.G. 1997. White-faced storm petrel (*Pelagodroma marina*) eating offal. *Notornis* 44: 26.
- Medway, D.G. 1993. The correct identity of the black-toed petrel *Procellaria melanopus* Gmelin, 1789. *Notornis* 40: 263-269.
- Medway, D.G. 1993. The identity of the chocolate albatross *Diomedea spadicea* of Gmelin, 1789 and of the wandering albatross *Diomedea exulans* of Linnaeus, 1758. *Notornis* 40: 145-162.

- Medway, D.G. 1993. The type specimen of the Australasian gannet *Morus serrator* (G.R. Gray, 1843). *Notornis* 40: 65-70.
- Medway, D.G. 1992. An early record of probable Snares cape pigeon off southwestern Australia. *Notornis* 39: 129-131.
- Medway, D.G. 1991. Further comments on J.R. Forster's observations of helicoidal intestines in the Procellariidae. *Notornis* 38: 244-245.
- Medway, D.G. 1987. King shags - a correction. *Notornis* 34: 80.
- Medway, D.G. 1986. A Kakapo at the Paringa River in 1965. *Notornis* 33: 166.
- Medway, D.G.; Medway, J.C. 1979. Second record of white-tailed tropic bird in New Zealand. *Notornis* 26: 170.
- Medway, D.G. 1976. Extant types of New Zealand birds from Cook's voyages (Part 2: the type specimens). *Notornis* 23: 120-137.
- Medway, D.G. 1976. Extant types of New Zealand birds from Cook's voyages, Part 1. Historical, and the type paintings. *Notornis* 23: 44-60.
- Medway, D.G. 1974. A common sandpiper near New Plymouth - the third New Zealand record. *Notornis* 21: 387-389.
- Sibson, R.B.; Medway, D.G.; Kennedy, S.C.; Drew, J.; Grant, G. 1972. The spread of the black-fronted dotterel. *Notornis* 19: 83-85.
- Medway, D.G. 1971. Sub-fossil avian remains from the Awakino-Mahoenui area. *Notornis* 18: 218-219.
- Medway, D.G. 1968. Records of the huia, North Island thrush and North Island kokako from the diaries of Joseph Robert Annabell (1857-1924). *Notornis* 15: 177-192.
- Hamel, G.; McKenzie, H.R.; Medway, D.G. 1968. Sightings of tattlers. *Notornis* 15: 37-39.
- Medway, D.G. 1967. Avian remains from new caves in Taumatamairi district. *Notornis* 14: 158-160.
- Medway, D.G. 1967. Further breeding colonies of grey-faced petrels in Taranaki. *Notornis* 14: 222-223.
- Macdonald, M.G.; Medway, D.G. 1966. A breeding colony of grey-faced petrels in Taranaki. *Notornis* 13: 17.
- Mead, A.D.; Medway, D.G. 1960. Old and recent nesting records of petrels in Taranaki. *Notornis* 9: 105-106.
- Medway, D.G. 1955. An observation on silvereyes. *Notornis* 6: 130.
- Medway, D.G. 1955. White heron (*Egretta alba*) at New Plymouth. *Notornis* 6: 117.
