

# Journal of Biosciences

Volume 30, 2005

## SUBJECT INDEX

- Abiotic stresses  
 Expression profiles of hot pepper (*Capsicum annuum*) genes under cold stress conditions 657  
 Sugar signalling and gene expression in relation to carbohydrate metabolism under abiotic stresses in plants 761
- Achaea janata*  
 Tissue localization and partial characterization of pheromone biosynthesis activating neuropeptide in *Achaea janata* 191
- Acoustical energy  
 Shock wave treatment in medicine 269
- Affinity chromatography  
 The amino-terminal domain of human signal transducers and activators of transcription 1: Overexpression, purification and characterization 611
- Agricultural plants  
 Nikolai I Vavilov (1887–1943) 299
- Agrobacterium tumefaciens*  
 Enhancement of resistance to aphids by introducing the snow-drop lectin gene *gna* into maize plants 627
- Algorithm  
 Can morphogenesis be understood in terms of physical rules? 87
- Alloxan diabetes  
 Amelioration of altered antioxidant status and membrane linked functions by vanadium and *Trigonella* in alloxan diabetic rat brains 483
- Alternative phenotypes  
 The return of the whole organism 31
- Amino-terminal domain  
 The amino-terminal domain of human signal transducers and activators of transcription 1: Overexpression, purification and characterization 611
- Amplifying power  
 Living in a physical world III. Getting up to speed 303
- 1-anilino-8-naphtharene sulphonic acid  
 Kinetics of fatty acid binding ability of glycated human serum albumin 475
- Annona squamosa* seed  
 Differential cytotoxic effects of *Annona squamosa* seed extracts on human tumour cell lines: Role of reactive oxygen species and glutathione 237
- Antheraea pernyi* nucleopolyhedrovirus  
 Cloning and sequence analysis of the *Antheraea pernyi* nucleopolyhedrovirus *gp64* gene 605
- Antibiotic  
 A non-polyene antifungal antibiotic from *Streptomyces albidoflavus* PU 23 201
- Antifungal  
 A non-polyene antifungal antibiotic from *Streptomyces albidoflavus* PU 23 201
- Antioxidant enzymes  
 Efficacy of lower doses of vanadium in restoring altered glucose metabolism and antioxidant status in diabetic rat lenses 221
- Antioxidants  
 Amelioration of altered antioxidant status and membrane linked functions by vanadium and *Trigonella* in alloxan diabetic rat brains 483
- Aphid  
 Enhancement of resistance to aphids by introducing the snow-drop lectin gene *gna* into maize plants 627
- Apoptosis  
 Indian herb ‘*Sanjeevani*’ (*Selaginella bryopteris*) can promote growth and protect against heat shock and apoptotic activities of ultra violet and oxidative stress 499
- Arabidopsis thaliana*  
 A sword in the rosetta stone 289
- Aspergillus niger*  
 Biochemical characterization of N-methyl N'-nitro-N-nitrosoguanidine-induced cadmium resistant mutants of *Aspergillus niger* 639
- Association constant  
 Epitope mapping from real time kinetic studies – Role of cross-linked disulphides and incidental interacting regions in affinity measurements: study with human chorionic gonadotropin and monoclonal antibodies 359
- Baculovirus  
 Cloning and sequence analysis of the *Antheraea pernyi* nucleopolyhedrovirus *gp64* gene 605
- Baldwin effect  
 The pre-Mendelian, pre-Darwinian world: Shifting relations between genetic and epigenetic mechanisms in early multicellular evolution 75
- Band 3  
 Detergent-resistant membranes in human erythrocytes and their connection to the membrane-skeleton 317
- b*-galactosidase  
 303What history tells us I. The operon model and its legacy 313
- Behavioural biology  
 The return of the whole organism 31
- Behavioural imprinting  
 The return of the whole organism 31
- Behavioural transmission  
 Not in their genes: Phenotypic flexibility, behavioural traditions and cultural evolution in wild bonnet macaques 51
- Beijing Holstein cows  
 Association of genetic polymorphism in *GH* gene with milk production traits in Beijing Holstein cows 595
- J D Bernal  
 J D Bernal and the replication of the genetic material – hindsight on foresight 407

Bio-ballistics		Clonality	
Living in a physical world II. The bio-ballistics of small projectiles	167	Structural organization of the transfer RNA operon I of <i>Vibrio cholerae</i> : Differences between classical and El Tor strains	469
Biodiversity		Clone	
Will transgenic plants adversely affect the environment?	515	Stochasticity or the fatal 'imperfection' of cloning	21
Biotechnology		Coat protein gene sequence	
The economics of biotechnology	151	Occurrence of <i>Cucumber mosaic virus</i> on vanilla ( <i>vanilla planifolia</i> Andrews) in India	339
Blooms		Cognitive modularity	
Nutrients and toxin producing phytoplankton control algal blooms – a spatio-temporal study in a noisy environment	749	Language cannot be reduced to biology: Perspectives from neuro-developmental disorders affecting language learning	129
Bonnet macaque		Cold-stress regulated genes	
Not in their genes: Phenotypic flexibility, behavioural traditions and cultural evolution in wild bonnet macaques	51	Expression profiles of hot pepper ( <i>Capsicum annuum</i> ) genes under cold stress conditions	657
<i>BoRSI</i> gene		Combinatorial coding	
Transgenic tobacco plants expressing <i>BoRSI</i> gene from <i>Brassica oleracea</i> var. <i>acephala</i> show enhanced tolerance to water stress	647	Chemosensory processing in the fruit fly, <i>Drosophila melanogaster</i> : Generalization of a feeding response reveals overlapping odour representations	679
Branching structures		Communication	
Can morphogenesis be understood in terms of physical rules?	87	Language from a biological perspective	119
Brush border lactase		Community effect	
<i>In vitro</i> translation of RNA to lactase during postnatal development of rat intestine	183	The use of <i>Xenopus</i> oocytes and embryos as a route towards cell replacement	11
$C_3/C_4$ mixed grassland		Complexity of life	
Contribution of root respiration to soil respiration in a $C_3/C_4$ mixed grassland	507	Ernst Mayr and the complexity of life	427
Cadmium		Computer simulation	
Biochemical characterization of N-methyl N'-nitro-N-nitrosoguanidine-induced cadmium resistant mutants of <i>Aspergillus niger</i>	639	Can morphogenesis be understood in terms of physical rules?	87
<i>Camellia sinensis</i>		Computer simulation	
Differential display-mediated identification of three drought-responsive expressed sequence tags in tea [ <i>Camellia sinensis</i> (L.) O. Kuntze]	231	Evolutionary ecology <i>in silico</i> : does mathematical modelling help in understanding 'generic' trends?	277
<i>Capsicum annuum</i>		Conduction	
Expression profiles of hot pepper ( <i>Capsicum annuum</i> ) genes under cold stress conditions	657	Living in a physical world IV. Moving heat around	449
Carbohydrate metabolism		Convection	
Sugar signalling and gene expression in relation to carbohydrate metabolism under abiotic stresses in plants	761	Living in a physical world IV. Moving heat around	449
Cell communication		Cortex	
Emergentism as a default: Cancer as a problem of tissue organization	103	Language from a biological perspective	119
Cell-cell interactions		Crystal structure	
Emergentism as a default: Cancer as a problem of tissue organization	103	Crystal structure of raw pure Mysore silk fibre based on (Ala-Gly) <sub>2</sub> -Ser-Gly peptide sequence using Linked-Atom-Least-Squares method	259
Chaperone function		<i>Cucumber mosaic virus</i>	
What history tells us II. The discovery of chaperone function	461	Occurrence of <i>Cucumber mosaic virus</i> on vanilla ( <i>vanilla planifolia</i> Andrews) in India	339
Charles Darwin		Cul4B	
Springing the trap	143	Cloning and characterization of mouse cullin4B/E3 ubiquitin ligase	329
Circadian rhythms		Cultural evolution	
Cellular clocks: circadian rhythms in primary human fibroblasts	553	Not in their genes: Phenotypic flexibility, behavioural traditions and cultural evolution in wild bonnet macaques	51
<i>Clonal selection</i> hypothesis		Curcin 2	
On RNA interference as template immunity	295	Expression of a ribosome inactivating protein (curcin 2) in <i>Jatropha curcas</i> is induced by stress	351
		Cytotoxicity	
		Differential cytotoxic effects of <i>Annona squamosa</i> seed extracts on human tumour cell lines: Role of reactive oxygen species and glutathione	237

DAMD		<i>Brassica oleracea</i> var. <i>acephala</i> show enhanced tolerance to water stress	647
Single primer amplification reaction methods reveal exotic and indigenous mulberry varieties are similarly diverse	669	Ecological developmental biology	
DD-RT-PCR		Mechanisms for the environmental regulation of gene expression: Ecological aspects of animal development	65
Cloning and characterization of mouse cullin4B/E3 ubiquitin ligase	329	Ecology	
Desmoplastic small round cell tumour		Will transgenic plants adversely affect the environment?	515
Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371	Ectocarpales	
Detergent-resistant membrane		A new measure to study phylogenetic relations in the brown algal order Ectocarpales: The "codon impact parameter"	699
Detergent-resistant membranes in human erythrocytes and their connection to the membrane-skeleton	317	Ectopic foot formation	
Developmental dyslexia		Ultraviolet irradiation initiates ectopic foot formation in regenerating hydra and romotes budding	177
Language cannot be reduced to biology: Perspectives from neurodevelopmental disorders affecting language learning	129	Electromagnetic field	
Developmental plasticity		Shock wave treatment in medicine	269
The return of the whole organism	31	Energy consumption	
Diabetes		Can morphogenesis be understood in terms of physical rules?	87
Efficacy of lower doses of vanadium in restoring altered glucose metabolism and antioxidant status in diabetic rat lenses	221	Environment	
Diabetes		Will transgenic plants adversely affect the environment?	515
Kinetics of fatty acid binding ability of glycated human serum albumin	475	Environmental agents	
Differential display		Mechanisms for the environmental regulation of gene expression: Ecological aspects of animal development	65
Differential display-mediated identification of three drought-responsive expressed sequence tags in tea [ <i>Camellia sinensis</i> (L.) O. Kuntze]	231	Enzymes	
Differential expression		Biochemical characterization of N-methyl N'-nitro-N-nitrosoguanidine-induced cadmium resistant mutants of <i>Aspergillus niger</i>	639
Cloning and characterization of mouse cullin4B/E3 ubiquitin ligase	329	Epidermal gland cells	
Differentiation		Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): I. Ultrastructure and histology	711
Cloning and characterization of mouse cullin4B/E3 ubiquitin ligase	329	Epigenetic inheritance	
Disease		Do plants and animals differ in phenotypic plasticity?	41
Fingernails as biological indices of metal exposure	253	Epigenetic silencing	
Disorders		Collateral damage: Spread of repeat-induced point mutation from a duplicated DNA sequence into an adjoining single-copy gene in <i>Neurospora crassa</i>	15
The nature-nurture controversy in its most recent avatar: A response to Shukla and Vasanta	139	Epilepsy	
Dissociation constant		Neuronal survival in epilepsy: to die or not to die?	561
Kinetics of fatty acid binding ability of glycated human serum albumin	475	Epitope mapping	
DNA methylation		Epitope mapping from real time kinetic studies – Role of cross-lined disulphides and incidental interacting regions in affinity measurements: study with human chorionic gonadotropin and monoclonal antibodies	359
Collateral damage: Spread of repeat-induced point mutation from a duplicated DNA sequence into an adjoining single-copy gene in <i>Neurospora crassa</i>	15	Erythrocyte	
DNA thermal degradation		Detergent-resistant membranes in human erythrocytes and their connection to the membrane-skeleton	317
Single gene retrieval from thermally degraded DNA	599	EvoDevo	
<i>Drosophila</i> genes		The pre-Mendelian, pre-Darwinian world: Shifting relations between genetic and epigenetic mechanisms in early multicellular evolution	75
What history tells us II. The discovery of chaperone function	461	Evolution	
Drought stress		Language from a biological perspective	119
Differential display-mediated identification of three drought-responsive expressed sequence tags in tea [ <i>Camellia sinensis</i> (L.) O. Kuntze]	231	Southward Ho!	293
Dry matter accumulation		Evolutionary biologist	
Transgenic tobacco plants expressing <i>BoRSI</i> gene from		In memoriam: Ernst Mayr (1904–2005)	415

Ewing's sarcoma		<i>gaster</i> : Generalization of a feeding response reveals overlapping odour representations	679
Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371	Genes	
EWS-FLI 1		Differential display-mediated identification of three drought-responsive expressed sequence tags in tea [ <i>Camellia sinensis</i> (L.) O. Kuntze]	231
Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371	Genetic correlations	
Experimental biology		Phenotypic plasticity and reaction norms of abdominal bristle number in <i>Drosophila melanogaster</i>	689
N V Timofeeff-Ressovsky in Germany (July, 1925– September, 1945)	573	Genetic determinism	
Extinction		Emergentism as a default: Cancer as a problem of tissue organization	103
Evolutionary ecology <i>in silico</i> : does mathematical modelling help in understanding 'generic' trends?	277	Genetic polymorphism	
Fatty acid binding		Association of genetic polymorphism in <i>GH</i> gene with milk production traits in Beijing Holstein cows	595
Kinetics of fatty acid binding ability of glycosylated human serum albumin	475	Genetic predisposition	
Fingernails		Language cannot be reduced to biology: Perspectives from neuro-developmental disorders affecting language learning	139
Fingernails as biological indices of metal exposure	253	Genetically modified plants	
Flagellar filament		Will transgenic plants adversely affect the environment?	515
Ion-swimming speed variation of <i>Vibrio cholerae</i> cells	465	Genome defense	
Flagellar motor		Collateral damage: Spread of repeat-induced point mutation from a duplicated DNA sequence into an adjoining single-copy gene in <i>Neurospora crassa</i>	15
Ion-swimming speed variation of <i>Vibrio cholerae</i> cells	465	Genome research	
Flotillin		Whither genome research: Of man, mosquito and malaria	567
Detergent-resistant membranes in human erythrocytes and their connection to the membrane-skeleton	317	Getting up to speed	
Fluorescence displacement assay		Living in a physical world III. Getting up to speed	303
Kinetics of fatty acid binding ability of glycosylated human serum albumin	475	Glucose metabolism	
Food habit		Efficacy of lower doses of vanadium in restoring altered glucose metabolism and antioxidant status in diabetic rat lenses	221
Fingernails as biological indices of metal exposure	253	Glycation	
Food web		Kinetics of fatty acid binding ability of glycosylated human serum albumin	475
Evolutionary ecology <i>in silico</i> : does mathematical modelling help in understanding 'generic' trends?	277	Gonotrophic cycle	
Fourier approximation		Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): II. Post-copulatory histophysiological changes during the gonotrophic cycle	733
Bilaterally symmetric fourier approximations of the skull outlines of temnospondyl amphibians and their bearing on shape comparison	377	<i>gp64</i> gene	
Galagos		Cloning and sequence analysis of the <i>Antheraea pernyi</i> nucleopolyhedrovirus <i>gp64</i> gene	605
From mice to men: the evolution of the large, complex human brain	155	Gramicidins	
<i>Galanthus nivalis</i> L. agglutinin gene		Ion channels and D-amino acids	147
Enhancement of resistance to aphids by introducing the snowdrop lectin gene <i>gna</i> into maize plants	627	Growth hormone gene	
Gene		Association of genetic polymorphism in <i>GH</i> gene with milk production traits in Beijing Holstein cows	595
The century beyond the gene	3	Growth temperature	
Gene bank		Phenotypic plasticity and reaction norms of abdominal bristle number in <i>Drosophila melanogaster</i>	689
Nikolai I Vavilov (1887–1943)	299	GSH	
Gene expression		Differential cytotoxic effects of <i>Annona squamosa</i> seed extracts on human tumour cell lines: Role of reactive oxygen species and glutathione	237
Sugar signalling and gene expression in relation to carbohydrate metabolism under abiotic stresses in plants	761	Habituation	
Gene-environment interactions		Chemosensory processing in the fruit fly, <i>Drosophila melano-</i>	
Genotype, phenotype and cancer: Role of low penetrance genes and environment in tumour susceptibility	93		
Generalization gradients			
Chemosensory processing in the fruit fly, <i>Drosophila melano-</i>			

<i>gaster</i> : Generalization of a feeding response reveals overlapping odour representations	679	Intraspinal	Enhanced analgesic effect of morphine-nimodipine combination after intraspinal administration as compared to systemic administration in mice	491
Heritability		Introgession	Will transgenic plants adversely affect the environment?	515
Phenotypic plasticity and reaction norms of abdominal bristle number in <i>Drosophila melanogaster</i>	689	Ion channels	Ion channels and D-amino acids	147
Hexapeptide		Isofemale lines	Phenotypic plasticity and reaction norms of abdominal bristle number in <i>Drosophila melanogaster</i>	689
Crystal structure of raw pure Mysore silk fibre based on (Ala-Gly) <sub>2</sub> -Ser-Gly peptide sequence using Linked-Atom-Least-Squares method	259	ISSR	Single primer amplification reaction methods reveal exotic and indigenous mulberry varieties are similarly diverse	669
Histophysiological changes		<i>Japonica</i>	Ernst Mayr in Japan, October 1994	419
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): II. Post-copulatory histophysiological changes during the gonotrophic cycle	733	<i>Jatropha curcas</i>	Expression of a ribosome inactivating protein (curcin 2) in <i>Jatropha curcas</i> is induced by stress	351
HIV-1		Kidney toxicity	Liver and kidney toxicity in chronic use of opioids: An experimental long term treatment model	245
Molecular mechanisms of HIV-1 associated neurodegeneration	391	Kinetics	Epitope mapping from real time kinetic studies – Role of cross-linked disulphides and incidental interacting regions in affinity measurements: study with human chorionic gonadotropin and monoclonal antibodies	359
Host range		Lactase mRNA	<i>In vitro</i> translation of RNA to lactase during postnatal development of rat intestine	183
Occurrence of <i>Cucumber mosaic virus</i> on vanilla ( <i>vanilla planifolia</i> Andrews) in India	339	Language	Language from a biological perspective	119
<i>hth</i> gene		Language acquisition	Language cannot be reduced to biology: Perspectives from neuro-developmental disorders affecting language learning	139
A sword in the rosetta stone	289	Leaf chlorophyll content	Transgenic tobacco plants expressing <i>BoRS1</i> gene from <i>Brassica oleracea</i> var. <i>acephala</i> show enhanced tolerance to water stress	647
Human evolution		Lens	Efficacy of lower doses of vanadium in restoring altered glucose metabolism and antioxidant status in diabetic rat lenses	221
Southward Ho!	293	Lepidoptera	Cloning and sequence analysis of the <i>Antheraea pernyi</i> nucleopolyhedrovirus <i>gp64</i> gene	605
Human fibroblasts		Leprosy	A destiny to fulfill	435
Cellular clocks: circadian rhythms in primary human fibroblasts	553	Limb development	The pre-Mendelian, pre-Darwinian world: Shifting relations between genetic and epigenetic mechanisms in early multicellular evolution	75
Human health		Lipid raft	Detergent-resistant membranes in human erythrocytes and their connection to the membrane-skeleton	317
Will transgenic plants adversely affect the environment?	515			
Human organs				
Can morphogenesis be understood in terms of physical rules?	87			
Human serum albumin				
Kinetics of fatty acid binding ability of glycated human serum albumin	475			
Immunocytochemistry				
Tissue localization and partial characterization of pheromone biosynthesis activating neuropeptide in <i>Achaea janata</i>	191			
Immunology				
A destiny to fulfill	435			
<i>In vitro</i> RNA translation				
<i>In vitro</i> translation of RNA to lactase during postnatal development of rat intestine	183			
Incidental interacting regions				
Epitope mapping from real time kinetic studies – Role of cross-linked disulphides and incidental interacting regions in affinity measurements: study with human chorionic gonadotropin and monoclonal antibodies	359			
Infectious microorganisms				
Early human settlements as an opportunity for infectious microorganisms	411			
Intelligent Design				
Ernst Mayr and the complexity of life	427			
Intergenic spacer region (ISR)				
Molecular phylogenetic analysis of <i>Vibrio cholerae</i> O1 El Tor strains isolated before, during and after the O139 outbreak based on the intergenomic heterogeneity of the 16S-23S rRNA intergenic spacer regions	619			

Liver toxicity		
Liver and kidney toxicity in chronic use of opioids: An experimental long term treatment model	245	
Low penetrance genes		
Genotype, phenotype and cancer: Role of low penetrance genes and environment in tumour susceptibility	93	
<i>M. leprae</i>		
A destiny to fulfill	435	
<i>Macaca radiata</i>		
Not in their genes: Phenotypic flexibility, behavioural traditions and cultural evolution in wild bonnet macaques	51	
Maize		
Enhancement of resistance to aphids by introducing the snow-drop lectin gene <i>gna</i> into maize plants	627	
Malaria		
Whither genome research: Of man, mosquito and malaria	567	
MALDI-MS		
Tissue localization and partial characterization of pheromone biosynthesis activating neuropeptide in <i>Achaea janata</i>	191	
Mannose-binding lectin		
cDNA cloning and characterization of a mannose-binding lectin from <i>Zingiber officinale</i> Roscoe (ginger) rhizomes	213	
Marker index		
Single primer amplification reaction methods reveal exotic and indigenous mulberry varieties are similarly diverse	669	
Ernst Mayr		
In memoriam: Ernst Mayr (1904–2005)	415	
Ernst Mayr in Japan, October 1994	419	
Ernst Mayr – teacher, mentor, friend	422	
Ernst Mayr and the complexity of life	427	
Membrane skeleton		
Detergent-resistant membranes in human erythrocytes and their connection to the membrane-skeleton	317	
Metals exposure		
Fingernails as biological indices of metal exposure	253	
Microarray		
Expression profiles of hot pepper ( <i>Capsicum annuum</i> ) genes under cold stress conditions	657	
Microbial respiration		
Contribution of root respiration to soil respiration in a C <sub>3</sub> /C <sub>4</sub> mixed grassland	507	
Milk production traits		
Association of genetic polymorphism in <i>GH</i> gene with milk production traits in Beijing Holstein cows	595	
Minimalism		
Language from a biological perspective	119	
Modern humans		
Southward Ho!	293	
Molecular Biology		
J D Bernal and the replication of the genetic material – hindsight on foresight	407	
Monoallelic expression		
Stochasticity or the fatal ‘imperfection’ of cloning	21	
Monoclonal antibody		
Epitope mapping from real time kinetic studies – Role of cross-linked disulphides and incidental interacting regions in affinity measurements: study with human chorionic gonadotropin and monoclonal antibodies	359	
Morphine		
Liver and kidney toxicity in chronic use of opioids: An experimental long term treatment model	245	
Enhanced analgesic effect of morphine-nimodipine combination after intraspinal administration as compared to systemic administration in mice	491	
Morphogen signalling		
The use of <i>Xenopus</i> oocytes and embryos as a route towards cell replacement	11	
Morphogenesis		
Emergentism as a default: Cancer as a problem of tissue organization	103	
Mosquito		
Whither genome research: Of man, mosquito and malaria	567	
Moving heat around		
Living in a physical world IV. Moving heat around	449	
Multiple primary cancers		
Genotype, phenotype and cancer: Role of low penetrance genes and environment in tumour susceptibility	93	
Muscle-powered animal systems		
Living in a physical world III. Getting up to speed	303	
Mutants		
Biochemical characterization of N-methyl N'-nitro-N-nitrosoguanidine-induced cadmium resistant mutants of <i>Aspergillus niger</i>	639	
Mutation		
Stochasticity or the fatal ‘imperfection’ of cloning	21	
Na <sup>+</sup> /K <sup>+</sup> ATPase		
Amelioration of altered antioxidant status and membrane linked functions by vanadium and <i>Trigonella</i> in alloxan diabetic rat brains	483	
Natural selection		
Early human settlements as an opportunity for infectious microorganisms	411	
Neocortex		
From mice to men: the evolution of the large, complex human brain	155	
Neoplasms		
Emergentism as a default: Cancer as a problem of tissue organization	103	
Neurodegeneration		
Molecular mechanisms of HIV-1 associated neurodegeneration	391	
Neuromuscular junction		
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): I. Ultrastructure and histology	711	
Neuronal apoptosis		
Molecular mechanisms of HIV-1 associated neurodegeneration	391	
Neuronal survival		
Neuronal survival in epilepsy: to die or not to die?	561	
Nikolai Ivanovich Vavilov		
Nikolai I Vavilov (1887–1943)	299	
Nimodipine		
Enhanced analgesic effect of morphine-nimodipine combination		

- after intraspinal administration as compared to systemic administration in mice 491
- NJ tree
- Single primer amplification reaction methods reveal exotic and indigenous mulberry varieties are similarly diverse 669
- Non-polyene
- A non-polyene antifungal antibiotic from *Streptomyces albidoflavus* PU 23 201
- Nuclear localization sequence
- Cloning and characterization of mouse cullin4B/E3 ubiquitin ligase 329
- Nuclear transfer
- The use of *Xenopus* oocytes and embryos as a route towards cell replacement 11
- Nutrients
- Nutrients and toxin producing phytoplankton control algal blooms – a spatio-temporal study in a noisy environment 749

Psychodidae): II. Post-copulatory histophysiological changes during the gonotrophic cycle	733	RIP	
Post-insemination		Collateral damage: Spread of repeat-induced point mutation from a duplicated DNA sequence into an adjoining single-copy gene in <i>Neurospora crassa</i>	15
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): II. Post-copulatory histophysiological changes during the gonotrophic cycle	733	RNA interference	
Primates		On RNA interference as template immunity	295
From mice to men: the evolution of the large, complex human brain	155	Root biomass	
Projectiles		Contribution of root respiration to soil respiration in a C <sub>3</sub> /C <sub>4</sub> mixed grassland	507
Living in a physical world II. The bio-ballistics of small projectiles	167	Root respiration	
Promotion of budding		Contribution of root respiration to soil respiration in a C <sub>3</sub> /C <sub>4</sub> mixed grassland	507
Ultraviolet irradiation initiates ectopic foot formation in regenerating hydra and promotes budding	177	ROS	
Protein induction		Differential cytotoxic effects of <i>Annona squamosa</i> seed extracts on human tumour cell lines: Role of reactive oxygen species and glutathione	237
Expression of a ribosome inactivating protein (curcin 2) in <i>Jatropha curcas</i> is induced by stress	351	Rosetta stone	
Protozoology		A sword in the rosetta stone	289
What history tells us III. André Lwoff: From protozoology to molecular definition of viruses	591	RP-HPLC	
		Tissue localization and partial characterization of pheromone biosynthesis activating neuropeptide in <i>Achaea janata</i>	191
RACE			
cDNA cloning and characterization of a mannose-binding lectin from <i>Zingiber officinale</i> Roscoe (ginger) rhizomes	213	<i>Sanjeevani</i>	
RAPD		Indian herb ' <i>Sanjeevani</i> ' ( <i>Selaginella bryopteris</i> ) can promote growth and protect against heat shock and apoptotic activities of ultra violet and oxidative stress	499
Single primer amplification reaction methods reveal exotic and indigenous mulberry varieties are similarly diverse	669	Scaling of acceleration	
Rat intestinal development		Living in a physical world III. Getting up to speed	303
<i>In vitro</i> translation of RNA to lactase during postnatal development of rat intestine	183	SDS-PAGE electrophoresis	
Reaction norm		The amino-terminal domain of human signal transducers and activators of transcription 1: Overexpression, purification and characterization	611
Do plants and animals differ in phenotypic plasticity?	41	<i>Selaginella bryopteris</i>	
Reaction norms		Indian herb ' <i>Sanjeevani</i> ' ( <i>Selaginella bryopteris</i> ) can promote growth and protect against heat shock and apoptotic activities of ultra violet and oxidative stress	499
Phenotypic plasticity and reaction norms of abdominal bristle number in <i>Drosophila melanogaster</i>	689	Sequence analyses	
Reductionism		Occurrence of <i>Cucumber mosaic virus</i> on vanilla ( <i>vanilla planifolia</i> Andrews) in India	339
The century beyond the gene	3	Serological detection	
Emergentism as a default: Cancer as a problem of tissue organization	103	Occurrence of <i>Cucumber mosaic virus</i> on vanilla ( <i>vanilla planifolia</i> Andrews) in India	339
Regeneration		Settlement of humans	
Ultraviolet irradiation initiates ectopic foot formation in regenerating hydra and promotes budding	177	Early human settlements as an opportunity for infectious microorganisms	411
Regulatory framework		Shock wave	
The economics of biotechnology	151	Shock wave treatment in medicine	269
Relative water content		Silk fibroin	
Transgenic tobacco plants expressing <i>BoRS1</i> gene from <i>Brassica oleracea</i> var. acephala show enhanced tolerance to water stress	647	Crystal structure of raw pure Mysore silk fibre based on (Ala-Gly) <sub>2</sub> -Ser-Gly peptide sequence using Linked-Atom-Least-Squares method	259
Replication		Silk II	
J D Bernal and the replication of the genetic material – hindsight on foresight	407	Crystal structure of raw pure Mysore silk fibre based on (Ala-Gly) <sub>2</sub> -Ser-Gly peptide sequence using Linked-Atom-Least-Squares method	259
Resilin-rich cuticle		Singlet gene retrieval	
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): I. Ultrastructure and histology	711	Single gene retrieval from thermally degraded DNA	599

Singlet oxygen		
Single gene retrieval from thermally degraded DNA	599	
Skull outlines		
Bilaterally symmetric fourier approximations of the skull outlines of temnospondyl amphibians and their bearing on shape comparison	377	
Small round cell tumour		
Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371	
Smoking		
Fingernails as biological indices of metal exposure	253	
SNP		
Genotype, phenotype and cancer: Role of low penetrance genes and environment in tumour susceptibility	93	
Social factors		
Language cannot be reduced to biology: Perspectives from neuro-developmental disorders affecting language learning	139	
Social traditions		
Not in their genes: Phenotypic flexibility, behavioural traditions and cultural evolution in wild bonnet macaques	51	
Sodium orthovanadate (SOV)		
Amelioration of altered antioxidant status and membrane linked functions by vanadium and <i>Trigonella</i> in alloxan diabetic rat brains	483	
Soil respiration		
Contribution of root respiration to soil respiration in a C <sub>3</sub> /C <sub>4</sub> mixed grassland	507	
Somatic mutation theory		
Emergentism as a default: Cancer as a problem of tissue organization	103	
Somatosensory		
From mice to men: the evolution of the large, complex human brain	155	
South Indian patients		
Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371	
Southward Ho!		
Southward Ho!	293	
Spatio-temporal structures		
Nutrients and toxin producing phytoplankton control algal blooms – a spatio-temporal study in a noisy environment	749	
Speciation		
Evolutionary ecology <i>in silico</i> : does mathematical modelling help in understanding 'generic' trends?	277	
Species diversity		
How relevant are the concepts of species diversity and species richness?	557	
Species richness		
How relevant are the concepts of species diversity and species richness?	557	
Specific language impairment		
Language cannot be reduced to biology: Perspectives from neuro-developmental disorders affecting language learning	129	
Spermathecal complex		
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): I. Ultrastructure and histology	733	
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): II. Post-copulatory histophysiological changes during the gonotrophic cycle	711	
Springing		
Springing the trap	143	
STAT proteins		
The amino-terminal domain of human signal transducers and activators of transcription 1: Overexpression, purification and characterization	611	
Stochastic reaction-diffusion system		
Nutrients and toxin producing phytoplankton control algal blooms – a spatio-temporal study in a noisy environment	749	
Stochasticity		
Stochasticity or the fatal 'imperfection' of cloning	21	
<i>Streptomyces albidoflavus</i>		
A non-polyene antifungal antibiotic from <i>Streptomyces albidoflavus</i> PU 23	201	
Stress		
Expression of a ribosome inactivating protein (curcin 2) in <i>Jatropha curcas</i> is induced by stress	351	
Stroma permissiveness		
Tumour development due to stroma permissiveness	551	
Sugar sensing		
Sugar signalling and gene expression in relation to carbohydrate metabolism under abiotic stresses in plants	761	
Sugar signalling		
Sugar signalling and gene expression in relation to carbohydrate metabolism under abiotic stresses in plants	761	
Super-contracting visceral muscle		
Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): I. Ultrastructure and histology	711	
Supracellular phenomena		
Emergentism as a default: Cancer as a problem of tissue organization	103	
Swimming speed		
Ion-swimming speed variation of <i>Vibrio cholerae</i> cells	465	
Symbiosis		
Mechanisms for the environmental regulation of gene expression: Ecological aspects of animal development	65	
System biology		
The century beyond the gene	3	
Tail flick latency		
Enhanced analgesic effect of morphine-nimodipine combination after intraspinal administration as compared to systemic administration in mice	491	
Tea		
Differential display-mediated identification of three drought-responsive expressed sequence tags in tea [ <i>Camellia sinensis</i> (L.) O. Kuntze]	231	

Temnospondyls		Type 1 and type 2 fusion	
Bilaterally symmetric fourier approximations of the skull outlines of temnospondyl amphibians and their bearing on shape comparison	377	Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371
Temperature		Ultrastructure	
Living in a physical world	V. Maintaining temperature 581	Structure and function of the spermathecal complex in the phlebotomine sandfly <i>Phlebotomus papatasi</i> Scopoli (Diptera: Psychodidae): I. Ultrastructure and histology	711
Template immunity		Ultraviolet radiation	
On RNA interference as template immunity	295	Ultraviolet irradiation initiates ectopic foot formation in regenerating hydra and promotes budding	177
Thermal shock		Unified model	
Indian herb ' <i>Sanjeevani</i> ' ( <i>Selaginella bryopteris</i> ) can promote growth and protect against heat shock and apoptotic activities of ultra violet and oxidative stress	499	Evolutionary ecology <i>in silico</i> : does mathematical modelling help in understanding 'generic' trends?	277
Timofeeff-Ressovsky N V		UV	
N V Timofeeff-Ressovsky in Germany (July, 1925–September, 1945)	573	Indian herb ' <i>Sanjeevani</i> ' ( <i>Selaginella bryopteris</i> ) can promote growth and protect against heat shock and apoptotic activities of ultra violet and oxidative stress	499
Tissue organization		Vanadate	
Emergentism as a default: Cancer as a problem of tissue organization	103	Efficacy of lower doses of vanadium in restoring altered glucose metabolism and antioxidant status in diabetic rat lenses	221
Tissue organization field theory		<i>Vanilla planifolia</i>	
Emergentism as a default: Cancer as a problem of tissue organization	103	Occurrence of <i>Cucumber mosaic virus</i> on vanilla ( <i>vanilla planifolia</i> Andrews) in India	339
Tobacco		<i>Vibrio cholerae</i>	
Transgenic tobacco plants expressing <i>BoRSI</i> gene from <i>Brassica oleracea</i> var. <i>acephala</i> show enhanced tolerance to water stress	647	Ion-swimming speed variation of <i>Vibrio cholerae</i> cells	465
Toxin		Structural organization of the transfer RNA operon I of <i>Vibrio cholerae</i> : Differences between classical and El Tor strains	469
Nutrients and toxin producing phytoplankton control algal blooms – a spatio-temporal study in a noisy environment	749	Molecular phylogenetic analysis of <i>Vibrio cholerae</i> O1 El Tor strains isolated before, during and after the O139 outbreak based on the intergenomic heterogeneity of the 16S-23S rRNA intergenic spacer regions	619
Tramadol		Viruses	
Liver and kidney toxicity in chronic use of opioids: An experimental long term treatment model	245	What history tells us	III. André Lwoff: From protozoology to molecular definition of viruses 591
Transgene		Vision	
Enhancement of resistance to aphids by introducing the snow-drop lectin gene <i>gna</i> into maize plants	627	From mice to men: the evolution of the large, complex human brain	155
Transgenic plants		Water stress	
Will transgenic plants adversely affect the environment?	515	Transgenic tobacco plants expressing <i>BoRSI</i> gene from <i>Brassica oleracea</i> var. <i>acephala</i> show enhanced tolerance to water stress	647
Translocation		Weighted codon usage	
Cloning and characterization of mouse cullin4B/E3 ubiquitin ligase	329	A new measure to study phylogenetic relations in the brown algal order Ectocarpales: The "codon impact parameter"	699
<i>Trigonella foenum graecum</i>		Williams syndrome	
Efficacy of lower doses of vanadium in restoring altered glucose metabolism and antioxidant status in diabetic rat lenses	221	Language cannot be reduced to biology: Perspectives from neuro-developmental disorders affecting language learning	129
<i>Trigonella foenum graecum</i> seed powder (TSP)		<i>Xenopus</i>	
Amelioration of altered antioxidant status and membrane linked functions by vanadium and <i>Trigonella</i> in alloxan diabetic rat brains	483	The use of <i>Xenopus</i> oocytes and embryos as a route towards cell replacement	11
tRNA operon I			
Structural organization of the transfer RNA operon I of <i>Vibrio cholerae</i> : Differences between classical and El Tor strains	469		
Tumour cells			
Differential cytotoxic effects of <i>Annona squamosa</i> seed extracts on human tumour cell lines: Role of reactive oxygen species and glutathione	237		
Tumour development			
Tumour development due to stroma permissiveness	551		

<i>Zingiber officinale</i>		rbcl gene	
cDNA cloning and characterization of a mannose-binding lectin from <i>Zingiber officinale</i> Roscoe (ginger) rhizomes	213	A new measure to study phylogenetic relations in the brown algal order Ectocarpales: The "codon impact parameter"	699
ZOA		t(11;22) translocation	
cDNA cloning and characterization of a mannose-binding lectin from <i>Zingiber officinale</i> Roscoe (ginger) rhizomes	213	Type 1 (11; 22)(q24: q12) translocation is common in Ewing's sarcoma/peripheral neuroectodermal tumour in south Indian patients	371
