Errata

Steady-state response of a micropolar generalized thermoelastic half-space to the moving mechanical/thermal loads

RAJNEESH KUMAR and SUNITA DESWAL

1. On page 451, in eq. (13) following two expressions have been left out and should be included:

$$u'_x = \frac{\rho \omega^* c_2}{v T_0} u_x, \qquad u'_z = \frac{\rho \omega^* c_2}{v T_0} u_z.$$

2. On page 454, a typographical error has been found out in eq. (48). The expression for Δ_0 should read as:

$$\Delta_0 = b_2'^2 \xi^2 \xi_1 \xi_2 \xi_3' (q_2 - q_1) - f_3'(f_1' \xi_2 q_2 - f_2' \xi_1 q_1).$$

All the analytical expressions and numerical results do not change due to these errors.
