## AIMS AND SCOPE

*Journal of Chemical Engineering of Japan*, an official publication of the Society of Chemical Engineers, Japan is dedicated to providing timely original research results in the broad field of chemical engineering ranging from fundamental principles to practical applications. Subject areas of this journal are listed below. Research works presented in the Journal are considered to have significant and lasting value in chemical engineering.

Physical Properties and Physical Chemistry  
Transport Phenomena and Fluid Engineering  
Particle Engineering  
Separation Engineering  
Thermal Engineering  
Chemical Reaction Engineering  
Process Systems Engineering and Safety

Biochemical Food and Medical Engineering  
Micro and Nano Systems  
Materials Engineering and Interfacial Phenomena  
Energy  
Environment  
Engineering Education
