Sponsors and Exhibitors

Partner: **Geomatics Association of Nova Scotia (GANS)**

A non-profit association created to help further promote the development of the Geomatics Industry in Nova Scotia, while making it competitive both domestically and internationally, and increasing its material contribution to the provinces economy. GANS fosters geomatics within all sectors of the Nova Scotia economy through a collaboration among a broad membership representing the public and private sector.

Platinum Sponsors

ESRI

Esri provides world-class enterprise geographic information system (GIS) solutions. Esri solutions have helped businesses, governments and educational institutions make timely, informed and mission-critical decisions by leveraging the power of geography.

Saint Mary's University

Founded in 1802, Saint Mary's University (Halifax, Canada) offers programs within faculties of Arts, Science, and Business, to over 7,000 students. The university has a strong commitment to environmental education and research, focused within the School of the Environment.
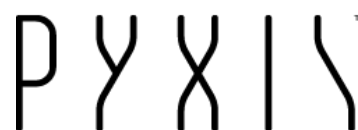

Nova Scotia Community College

The NSCC is Nova Scotia's largest and most diverse educational institutions, with more than 25,000 students. The NSCC's Centre for Geographic Sciences offers advanced training in a range of geomatics-oriented programs.

PYXIS

The PYXIS innovation™ is a recognized world leader in the use of discrete global grid technologies, a powerful Digital Earth reference model. Our customers create and own geospatial content through our WorldView™ Studio. Our value to them is a new Digital Earth marketplace for decision makers.

Gold Sponsors

NASA

The Hyperwall is a big beautiful "wall" of high-definition screens used to display NASA's latest and greatest data visualizations, images, videos, and other presentation material, and is a primary outreach platform for NASA's Science Mission Directorate. Existing Hyperwall stories highlight many themes in Earth science.

Dalhousie University

Dalhousie University is Atlantic Canada's leading research-intensive university. Located in the heart of Halifax, Nova Scotia, with an Agricultural Campus in Truro/Bible Hill, Dal is a truly national and international university, with more than half of our 18,500 students coming from outside of the province. Dal students and faculty engage in learning and discovery across 12 faculties.

The Province of Nova Scotia

Geographic Information Services (GIS) is the designated mapping service provider for the Province of Nova Scotia. As part of the Department of Internal Services, the GIS section provides government and public with Foundation Geography and GeoServices. GeoNOVA partners contribute to the Nova Scotia Geospatial Infrastructure to support the discovery and delivery of better information, products and services.

Silver Sponsors

MEOPAR

The Marine Environmental Observation Prediction and Response Network (MEOPAR) is a national network that is working to better understand and predict the impact of marine hazards on ecosystems and human activities, and to improve response to these hazards.

University of New Brunswick

With almost 150 Undergraduate, Masters and PhD students, the Department of Geodesy and Geomatics Engineering (GGE) at the University of New Brunswick is one of Canada's foremost representatives in professional geomatics education and research.

Media Partners

Earth Imaging Journal

Earth Imaging Journal is a bimonthly print magazine covering a range of earth observation and geospatial technologies and applications.

Sensors & Systems

Sensors & Systems covers the integrated technologies of GIS, remote sensing, modeling, spatial analysis, surveying and sensor technologies.

Asian Surveying & Mapping

Asian Surveying & Mapping reports on surveying, positioning, GIS and remote sensing in the countries of Asia and the Pacific.

GeoSpatial Stream

GeoSpatial Stream provides a video digest that highlights the people, companies, tools and technology trends in the fast-moving geospatial technology industry.

GIM International

GIM International brings you the latest news and developments in Geomatics technology and management, worldwide.
