

Foreword

On behalf of the organizing committee of the 2017 International Global on Renewable Energy and Development (IGRED 2017), I would like to express a warm ‘Thank You’ to all the participants, for their important contribution, they brought to the Conference! I strongly appreciate the contribution of the authors, who submitted valuable papers and agreed to do successive revisions of their papers, following the recommendations received from the reviewers.

The aim of the IGRED 2017 Conference was to bring together experts in renewable energy and development, in order to exchange ideas and make new connections to extend and develop partnerships between the researchers from China and Singapore and other Countries.

We received more than 350 articles, which were peer reviewed by the International Scientific Committee or reviewers and they were also cross checked for similarities, for good scientific practice in publishing. Only 218 articles are accepted for publication in the IGRED 2017 Proceedings.

Many thanks to the members of the Scientific Committee and reviewers, who accepted to do the reviewing free of charge, which spent their time and effort to bring a substantial contribution to the IGRED 2017 Conference, by providing professional evaluation of the papers and suitable recommendations.

My colleagues from Tongji University have done their best and without their excellent work it would have been impossible to organize this event. Thank you very much to the Organizing Committee!

We have received excellent feedback up to now, from all the participants, saying they will be having fruitful scientific activities and they will spend enjoyable days, during the IGRED 2017 Conference!
