Preface

The 2016 Congress on Industrial and Applied Life Sciences & Mathematics (The Nature-Math 2016) already held at the Hotel EastParc Yogyakarta, Indonesia, during 05 - 06 November 2016.

The Nature-Math 2016 is designed to address one of the most challenging and urgent scientific and social demand that face global societies in the twenty-first century: life sciences for social good.

The structure of the conference features seven main themes of life sciences and mathematics: Environment, Food and Nutrition, Communication Disorders as human science, the use of Information Technology, Numerical Analysis and Computational Mathematics, Applied and Industrial Mathematics, and Mathematics Education.

This conference intends to bring together researchers, practitioners, researchers, and scholars from a wide range of disciplines who have a shared interests in the above-mentioned themes. We welcome contributions addressing any of the main themes of the conference.

The theme of The Nature-Math 2016 “ The Industrial Applications of Research Result of Life Sciences & Mathematics”

This year, we received 29 papers and after rigorous review, 04 papers were accepted.

The participants come from 04 countries. There are 1 (one) Paralell Session and 3 Keynote Speakers.

It is an honour to present this volume of Journal of Physics: Conference Series (JPCS) and we deeply thank the authors for their enthusiastic and high-grade contribution.

We would like to express our sincere gratitude to all in the Technical Program Committee who have reviewed the papers and developed a very interesting Conference Program as well as the invited and plenary speakers.

Finally, we would like to thank the conference chairmen, the members of the steering committee, the organizing committee, the organizing secretariat and the financial support from the conference sponsors that allowed the success of The Nature-Math 2016.
