

Preface

2018 the 2nd International Conference on Materials Engineering and Nano Sciences (ICMENS 2018) has been held in The Hong Kong Polytechnic University, during January 11-13, 2018. The purpose of ICMENS 2018 is promoting the creativity in the scope of materials engineering and Nano sciences.

ICMENS 2018 has attracted experts and scholars, a group of the authors and other related people attended the conference with apparent interest. We appreciate those who responded to our proposal and submitted their papers, especially those whose papers have been selected for the conference ICMENS 2018, the sponsors who have provided their valuable and professional suggestions and instructions and the scholars and professors who have spent their efforts as peer reviewers.

This proceedings of ICMENS 2018 presents papers submitted to the conference from universities, research institutes and industries. The papers selected depended on their quality and their relevancy to the conference. The volume tends to present to the readers the recent advances in the field of nanomaterials and material physics, material mechanics and solid mechanics, alloys and coatings, mechanical and manufacturing engineering, and etc. Hopeful this proceedings would be the beneficial to all participants of the conference and other readers.
