Preface

International Conference on Design, Engineering and Computer Sciences 2018 (ICDECS 2018) held on 9th August 2018 in JS Luwansa Hotel and Convention Center, Jakarta Indonesia. ICDECS 2018 was organized and hosted by Faculty of Engineering, Faculty of Computer Science and Faculty of Art and Design Universitas Mercu Buana Jakarta.

The first ICDECS 2018 aims to provide a platform for participants an interdisciplinary research and innovations from academia and industry with related topics in the field of Engineering; Computer Science; Art and Design. The conference provides a high level national and international research for scholars, scientists, researchers, and engineers to present their results in the field of engineering, computer science and art and design. The issue covers all the aspects of engineering from mechanical, electric and electronic, civil, architect, industrial engineering as well as in the filed of computer science, art and design.

The editors hope that this issue will provide the reader a broad overview of the recent and relevant field of the above disciplines. The editors would like to express their sincere appreciations and thanks to all the committee members of the ICDECS 2018 for their excellent efforts. Thanks also to IOP Conference Series for producing the issue with full articles.

Conference Chair

Dr. Setiyo Budiyo, MT.
