

## **Journal of Applied and Computational Mathematics**

The journal has been started in the year 2012 and it released its first volume in the same year. Till now, the journal has released 8 volumes by the end of 2019 and is successfully running its 9th Volume. The Journal is an open access publication that features scientific works of considerable significance and impact in all branches of mathematics that concerns with mathematical methods that are typically used in science, engineering, business, and industry. Computational mathematics involves mathematical research in areas of science where computing plays a central and essential role in emphasizing algorithms, numerical methods and symbolic methods with the concept of ubiquitous computing. The journal provides an Open Access platform to analyse new computational and applied techniques for solving the scientific or engineering problems.

Algebra  
Ant Colony Optimization  
Balance Law  
Computational Model  
Convection Diffusion Equations  
Differential Transform Method  
Fuzzy Boundary

**The classification extends to the above and its related topics too.**

Some of the articles released in 2019 are as follows:

1. Equivalences (i-MLD) of Tilings and Tiling Spaces
2. Some Characterizations of Involute-Evolute Curve Couple in the Hyperbolic Space
3. New Fixed Point Theorems in G-metric Spaces

The journal has released the conference details relating to the journal in 2019. In the same way, the Journal expects to cover all the above classification topics for the year 2020 along with the present research in this field.

### **Social media/digital marketing**

The journal always was in contact with the scientific group of the world through its mails, social media networks and its digital platforms. Some of the best ways to be in contact with the audiences' are:

1. Twitter postings: Regularly posting the articles, trends, updates of the journal. They can be visible at @ComputationalJ.
2. Posting Google Analytics data in the website.

3. Using LinkedIn and Facebook for regular updates.

4. Regularly being in contact not only through mails but also through WhatsApp.

The complete details about the journal can be seen at:

<https://www.hilarispublisher.com/applied-computational-mathematics.html> and for contacting us, mail us or WhatsApp us.

So, as an Editor, I invite all the extended dignitaries in this field to submit their articles for bringing this research/expertise to the global scientific community.

Regards

Guillermo Fernandez Anaya
