

Supplementary Information 3 – Example of MHIRA report with follow-up

Evaluation						
Show 100 entries		Search:				
	time	assessment	interpretation	recommendation	warning	
1	2023-09-08 09:09:11.52	Follow-up	The level of depression was none. The patient does not report to be suicidal according to the PHQ-9.			
2	2023-07-22 11:24:32.691	baseline	The level of depression was severe. The patient reports to be suicidal nearly every day.	Discuss the case with a psychiatrist at your department. Medication might be helpful. Please further evaluate the risk of suicidality and make sure the patient is safe. Consider hospitalisation to keep the patient safe.	⚠
